【 What is MEGUMEGU Roll for preschool children? 】

“MEGUMEGU Roll” is a kids version of disaster imagination tool “Meguro Roll” invented by Professor Meguro of the University of Tokyo.

“MEGUMEGU Roll for preschool children” is a preparation tool as a first step toward “MEGUMEGU Roll for early elementary school children”.

This tool will have children imagine three types of disasters with easy-to-understand illustrations and learn basic actions to take at the time of disaster through “cute animal mimicry dance”.

The purpose of this tool is to have children acquire disaster imagination skills and take quick actions at the time of disaster.

For guardians and educators How to use MEGUMEGU Roll

① Download data and print out.

② Let's sing and dance while watching dance video. We recommend you repeat a few times.

③ Place three sheets of ❷ on the table and have children hold three sheets of ❶.

④ Remember the dance, and have the children place sheet ❶ on sheet ❷ to make the right pair.

⑤ Let's listen and dance to the song once again, and make sure the pairs are correct.

⑥ Put some glue on "Space for pasting" of ❷, and paste ❷ and the back of ❶ together. **（⇒Fig 1）**

※ After working on "MEGUMEGU Roll", make a scroll cover following the instructions of ❸ "How to make a scroll cover", put rolled "MEGUMEGU Roll" into the scroll cover and it's complete!

After "MEGUMEGU Roll" training, let's display the scroll cover where you can see and have children mimic the animals from time to time.
